PROJECTS:

- **Zealtech Data web Application**

I created a Vite React web portfolio application for a business intelligence Kenyan company.

<https://www.zealtechdata.co.ke/>

- **Wamalwa Surveyors**

I created a Vite React web portfolio application for Land Surveyors Kenyan company.

<https://wamalwa-surveyors.onrender.com/>

- **Diner Tracker CLI Application**

Collaborated on the development of a Python application, primarily a CLI tool, called "Diner Tracker," designed to track inspections in various restaurants. This project involved data management and processing.

https://github.com/Chisaina69/Diner_tracker

- **SkillCode - Skill Assessment Platform**

Platform for students to assess skills and mentors to create assessments. Features include user roles, assignment submission, grading, and timed coding challenges

<https://skill-code-9pvo.onrender.com/>

- **Cocktail Finder Application**

Created a React application called "Cocktail" where users can find different cocktails and their recipes. This project involved front-end development and user interface design.

<https://cocktailly.netlify.app/>

- **Play-Nation Game Portal**

Developed an HTML, CSS, and JavaScript web application called

"Play-Nation" where users can access and play free games. The app provides direct links to the games, enhancing the gaming experience.

<https://github.com/Chisaina69/Play-Nation>

- **My Portfolio**

I made a React-Vite web application for a quick access to my information through the internet.
