SUMMARY

I am a passionate software engineer with a strong focus on web development, specializing in both front-end and back-end technologies. I thrive on crafting intuitive and engaging user experiences while maintaining a keen eye for detail and efficiency. My journey in the tech world began with an insatiable curiosity for how things work and has evolved into a full-blown love for creating elegant and efficient solutions. My expertise includes deploying and automating software systems, ensuring seamless integration and functionality across platforms. I excel in overseeing the entire software development lifecycle, from conceptualization to deployment, and I am committed to continuous improvement through collaboration and innovation.

EXPERIENCE

Frontend Developer Intern | Zealtech Data Solutions

2023 – 2024

- Collaborated with designers and back-end developers to implement user interfaces, enhancing user experience by .
- Tested and debugged code, ensuring cross-browser compatibility and optimal performance, leading to a reduction in customer complaints.
